Doctors Association in Incheon City, South Korea

Dear Sir,

May the presence of good days be with you, the Tarlac Provincial Jail inmates are seeking for medical assistance with regards in their present health status, as of now we had (506) inmates and almost 50% of them are now suffering from different illness like; possible pulmonary tuberculosis, asthma, skin diseases, fever, cough, common colds, diarrhea and dental as well.

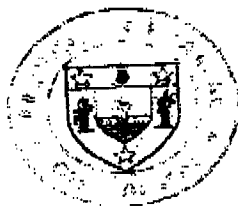

In view of this situation, we are requesting your good association to conduct a medical mission on any day from September 7 – 9, 2012 if possible, to have preventive measures against illness and promote wellness of inmates.

We are very thankful for the kindness and support that you will give us.

Have a nice day and God bless!

Respectfully yours,
